

Dear Dr. Bitan:

Words cannot express my appreciation to you for the great success of the spinal fusion that you performed on me.

I have just passed the one year mark of the operation and I can honestly say that I have not felt better than I feel now in at least the past five years. My back feels very strong and I have had no pain at all in the past six months. I am, however, being extra careful about not doing anything too strenuous as I know that the rest of my back is not in the best of shape!

Thanks again for the great job!

Sincerely,

Tom
